

# Using Time Differently

## to Increase and Improve Learning Opportunities

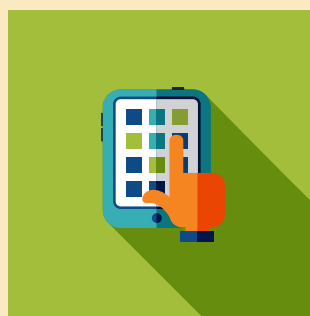

**Lead with a vision for all students**

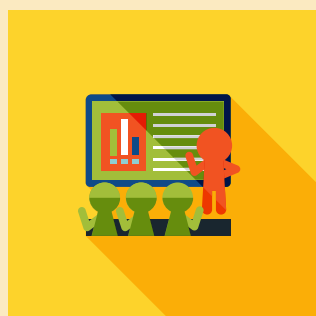

**Use time differently, creatively, and effectively to support that vision**

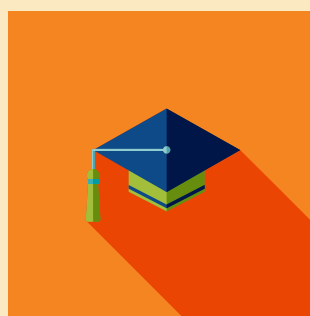

Expanded school schedule, calendar, and settings for learning

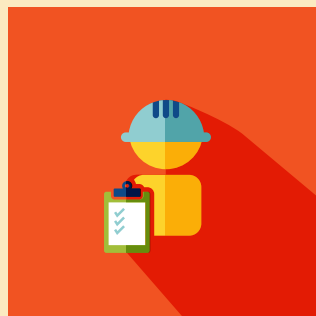

Use of technology to increase out-of-school learning time and make in-class time more efficient

Expanded and restructured learning time to support blocks of intensive classes

Dual-enrollment and early college opportunities

Applied learning opportunities, such as project-based, work-based, and service learning

Competency-based systems of advancement
