In one state, **57 percent** of high schools with an “A” had a reading proficiency rate for African American students in the 60s or below.
In another state, 47 percent of high schools with an “A” had a math proficiency rate for Latino students in the 60s or below.
The Issue with Indexes…

- Reading Proficiency: 25%
- Math Proficiency: 25%
- Graduation: 25%
- English Language Proficiency: 15%
- School Quality Indicator: 10%

A single subgroup’s reading proficiency accounts for only 2.8% of the index.
Identifying Consistently Underperforming Subgroups

In one state, there are 72 high schools where 80 percent or more of the African American students graduate on time; but 60 percent or fewer of the African American students achieve proficiency in math.
